DETAILED ACTION

1. This communication is in response to applicant's request for reconsideration filed on October 30, 2002. In addition, the Examiner acknowledges Applicant's request for consideration of previously submitted Information Disclosure Statement filed under 37 C.F.R. 1.97(b).

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-45, drawn to a method for assisting a customer in choosing a combination of commodity options, classified in class 705, subclass 36.
 - II. Claims 46-53, drawn to a method of combining commodity options into a grouping optimizing customer selections of combinations, classified in class 705, subclass 36.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as sub combinations disclosed as usable together in a single combination. The sub combinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has a separate process for choosing commodity options in that that it does not require grouping steps described in the invention II claims. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Martha J. Hopkins on December 30, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3624

5. Applicant is advised that reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Narayanswamy Subramanian whose telephone number is (703) 305-4878.
